WinZip®22 ENTERPRISE

Comparison Chart

Key features/products included	WinZip Standard	WinZip Pro	WinZip Enterprise
Maintenance One year of free upgrades and priority email support.	Sold Separately	Sold Separately	INCLUDED
NEW! Prompt to Unzip on Open Instantly unzip any Zip file in Explorer, from the WinZip Files Pane, or from the WinZip Ribbon or File menu.	✔	✔	✔
NEW! Unzip to Files Pane Folder With a single click of a button, you can unzip any file to the selected folder in the Files Pane.	✔	✔	✔
NEW! POSIX TAR Support You can now open and unzip POSIX TAR files in the updated compression format.	✔	✔	✔
NEW! Image Format Conversion Quickly and easily reduce image file size and convert images from one format to another, for example, from jpg to png. Add to a Zip file or save to your desktop for multi-use.	✔	✔	✔
NEW! Remove Personal Data from Files Easily remove personal data (EXIF) from various files so that when they are shared, your information is not included.	✔	✔	✔
NEW! WinZip Express Copy to Clipboard Share files in many ways, now including the clipboard! Easily place a cloud link for any file onto the clipboard where it may be pasted into other apps for sharing.	✔	✔	✔
Compress/Decompress Zip and unzip files in all major formats.	✔	✔	✔
WinZip Command Line Use WinZip directly from the command prompt and from batch (.BAT) files and script languages to pinpoint control over WinZip's actions.	✔	✔	✔
Encrypt/Decrypt Password protect files and secure data with 128- and 256-bit AES encryption.	✔	✔	✔
FIPS 140-2 supported Ensure your business meets U.S. government requirements for FIPS 140-2 encryption, both at rest and during exchange, even if Windows OS is not in FIPS 140-2 mode.			✔
Package and Share Share, access and manage files on several leading cloud services from within WinZip. Convert to PDF, add watermarks and resize images. Share faster with the Combined Address Book.	✔	✔	✔
Rich file management Easily access and work with files on your PC, network, HomeGroup and clouds. Move selected files to individual zips for streamlined sharing to devices.	✔	✔	✔
Background tools Background tools remind you about old or unused files that can be zipped, securely deleted or moved to the cloud to save system space.	✔	✔	✔
Backup and Automate Automate and schedule backups to prevent data loss, backup to any connected cloud and burn backups directly to CD, DVD or Blu-ray Disc. Combine files from your PC, network and clouds in one backup. Drag and drop files from Explorer or the WinZip File Pane into the Job Wizard for backup.		✔	✔
Built-in scanning WinZip Scan and Share lets you scan from WinZip, save your scan on your PC, network or clouds, and encrypt before sharing if you wish.		✔	✔
